

RUSSIAN ATTACK GAINS IN STRENGTH

Duma Is Adjourned; French to Consider New Call for Soldiers.

(Continued From Page 1)

portant measures one calling to the colors a contingent of 400,000 young men who in time of peace would be in military service in 1917. They are 18 and 19 years of age.

The bill will be presented in the name of President Poincaré. A memorandum written by Minister of War Millerand, dated September 10, accompanying the measure, says:

"It appears now to be necessary to anticipate the need of the contingent of 1917 for next spring. The minimum time for training is five months.

It will be necessary therefore to call out this contingent in October, or at the latest in November.

RETAIN OLDER MEN.

The bill also authorizes the government to retain at its disposition the class of 1888, which under the old law would be automatically released from obligation to serve. These are men of 48 years of age.

Minister of Finance Ribot's memorandum accompanying the bill introduced in the chamber of deputies to appropriating \$200,000,000 francs (\$1,240,000,000) for the expenses of the first quarter of the year, say that France, already has advanced \$50,000,000 francs (\$150,000,000) to her allies.

Slavs Imbued With Confidence Successes May Effect Campaign

By Associated Press.
LONDON, Sept. 16.—Petrograd correspondents speculating on the possibilities of the German campaign in Russia, and seems not easy to understand at the present moment, point out that the recent Russian successes prove the plans of the Germans in the north, and that the Germans are bent on penetrating farther into Russia, calling a series of extremely costly frontal attacks for every step gained.

The Germans are suffering from exhaustion, especially in men. For instance, in the past they have frequently tried to capture, following up the advantages gained by their artillery. The Russians often return before these overwhelming attacks, attack once to find out nothing happened and they were able to recover their old trenches.

Altogether one gains the impression that the turn of the tide is in sight. The Russians have kept German forces at full stretch from the Baltic to Bukowina, and, having incomparably superior resources in men, have now got the Germans in a position from which it will be difficult to go forward, and disastrous, possibly fatal, to attempt to go back.

Here and at the Hook of Holland were set rattling.

Maxima and the Hook of Holland are on the North Sea to the west of Rotterdam.

ASK GREEK EXPLANATION

By Associated Press.
ROME, Sept. 16, via Paris.—Because of the concentration of Greek and Rumanian troops on the Bulgarian frontier, the Bulgarian Foreign Minister has instructed the representatives of that country at Athens and Bucharest to request an immediate and definite explanation, according to a Sofia dispatch to the *Gloria d'Italia*.

RUSS PRISONERS, 2,571,750

By Associated Press.

GENEVA, Sept. 16.—The number of Russians taken prisoner since May 1 by the Austrians and Germans is reckoned by La Suisse at 2,571,750. It is stated that 6000 guns and 4000 machine guns have been captured. These figures have been compiled from official bulletins issued at Berlin and Vienna. The newspaper adds:

The official Austrian and German figures given out prior to May 1 showed a total of 1,395,000 Russian prisoners, not including civilians or the dead and wounded. General Pollvánoff, the Russian minister of war, informed the Duma that the total of officers and men at the front since the beginning of war was 5,060,000."

According to the most recent financial reports, M. Ribot said, the average monthly expenses of Russia were \$1,240,000,000 francs (\$360,000,000), German's monthly war expenses approach 2,500,000,000 francs (\$500,000,000), while Great Britain's exceeded this amount.

Minister Ribot concluded by alluding to the early issue of a national loan.

RUSSIANS HOLD DVINSK

Associated Press.

PETROGRAD, via London, 2:48 p. m., Sept. 16.—Although both Dvinsk and Riga have been taken and are being held by the Germans, the Russians still are holding their positions, and according to the war department advised here is no immediate hurry for their abandonment. Dvinsk is regarded as the longer because of its protection by the vine river. Neither position is of strategic importance, except as a section of the general front, each having been made of stores and abandoned by government and private institutions.

Russian successes in the vicinity of Novopol, in Galicia, are causing elation, but it is pointed out that they will not serve to betray the army into pushing cautiously into the Teutonic lines.

As an example of the tactics being followed in this respect there is cited the Russian action northeast of Dubno, where after raiding Austrian posts and capturing 1500 prisoners the Russians suddenly retired to their former position.

The line in the southwest is regarded

the more secure, since it is guarded

against a turning movement, one flank

resting on the Rumanian frontier and the other on extensive marshes along the

pit river.

WORKS PREPARE TO LEAVE

Associated Press.

LONDON, Sept. 16.—Advices from Constantinople, according to the Athens correspondent of the Exchange Telegraph company, are to the effect that all government institutions, such as the Ottoman Bank, are making preparations to move to the interior of Asia Minor. Because of the fear of an insurrection in Turkey all Turkish artillery will be placed in charge of Germans.

ATTLE IN NORTH SEA

Associated Press.

LONDON, Sept. 16.—That a naval engagement of magnitude is being fought the North Sea is believed here. A dispatch to *Reuters* Telegram Company in Maassluis, Holland, says:

"Heavy firing can be heard in a westward direction. It commenced at 9:30 o'clock this evening and by 10 o'clock became so violent that windows both

Czar Grants Political Prisoners Amnesty

By Associated Press.

TURIN, Italy, via Paris, Sept. 16.—The *Gazetta del Popolo* says it has received a dispatch from Petrograd stating that Emperor Nicholas has granted amnesty to all political prisoners. The number affected is said to be more than 100,000.

YOUNG SPRECKELS

WEDS SIDI WIRT

Marriage Plans Changed at Last Moment by the Groom.

(Continued From Page 1)

Diego, and is a grandson of the late Claus Spreckels, the California sugar king. Miss Wirt has long been a friend of the groom and is a young woman of special attractiveness and beauty, coming also of distinguished family.

Miss Wirt is a New York beauty and has been engaged to Spreckels for a year. She and the young millionaire met in San Francisco, where Miss Wirt was studying singing. She has a fine operatic soprano voice, and during the past six or seven months she has been studying in New York, with the possibility of entering upon a professional career. Two months ago she came to San Francisco and took a house with her sister, Mrs. Woodward Griggs of Seattle, and her little son, at 1117 Green street.

Miss Wirt has attracted a great deal of attention in the city on account of her beauty, which is the slender, flower-like blonde type, with large blue eyes and skin of slightly olive tinge, which she says is due to her Egyptian ancestry. Her grandmother was a native of Egypt.

French Liner Ashore; Passengers Are Saved

By Associated Press.

MARSEILLES, France, Sept. 16.—The liner *Euphrate*, owned by the Messageries Maritimes, has gone ashore on the island of Socrata. Passengers and crew have been taken off by passing steamers. It is feared the *Euphrate* will be a total loss.

The *Euphrate* is a steamer of 8760 tons, 300x44 feet long with a beam of 32 feet. She was last reported to have sailed from Salerno, Italy, for Cochin-China, August 24, for Marseilles.

Socrata Island, on which the *Euphrate* is reported to have gone aground, is in the Indian Ocean near the entrance to the Gulf of Aden and 185 miles east-northeast of Cape Guardafui. It is about eighty miles in length and the capital is Temarida, on the north coast.

"SPANISH NIGHTINGALE" WILL KNOW FATE SOON

The trial of Mrs. J. R. Molera, known to the stage as Fe Carranza, the Spanish Nightingale, charged with contributing to the dependency of a minor child, was resumed before Superior Judge Griffin in San Francisco today. J. R. Molera, of Alameda, the woman's husband, is the complaining witness. Molera has the custody of the elder daughter whom Mrs. Molera took with her when she eloped from the Alameda home of the couple and fled to New York with Frank Ferronius Jr. The Alameda county superior court gave the husband the custody of the child, although the warrant for the arrest of Mrs. Molera was issued in San Francisco and she was brought here. The case will go to the jury either late this afternoon or tomorrow.

MOHR CASE CONTINUED.

By Associated Press.

WARREN, R. I., Sept. 16.—A continuance of two weeks was ordered when the cases of Mrs. Elizabeth Tiffany Mohr, accused of inciting the murder of her husband, Dr. C. Franklin Mohr, and George W. Heals, C. Victor Brown and Henry Spellman, the negroes charged with the actual commission of the crime, were called over.

U. S. WAR KINGS DISCUSS LOAN

Financiers Differ With Anglo-French Commission on the Rate of Interest.

(Continued From Page 1)

citizens if there be deficiency of money in America to meet an American loan.

EFFECT OF LOAN.

"The effect of this foreign loan would be to take \$1,000,000,000 from our people of their own money and lend it to nations who are spending \$1,200,000,000 a day. In sixty days all of that money will be spent by the foreign nations and we will have in its place securities of two or three countries issued upon a credit already taxed beyond its resources, and we will have no way left by law to collect the collateral."

"This condition would bring on a crisis in this country as in 1873 and in 1893, when panics were brought on America by sending our money out of the country to deliver the falling fortunes of Europe."

Remember, we never recovered

that money. We got securities in concern that went into receivers' hands and into bankruptcy as collateral or payment for those lost millions.

MONEY NEEDED.

"Our business men and farmers need the available money now in America to initiate and sustain home enterprises, give employment to labor and increase commerce."

Now if it be said that our people do not need the money at home and that it should be loaned abroad, then I suggest that we lend it to South America. There we would have a chance to build up trade and we would get a collateral and security resting on empires of valuable land. This is the same form of collateral we have obtained in the days of our needs. By this system I suggest it will be seen that no charge of discrimination against any European country now at war could be made. America would lose nothing, while our commercial interests and national defenses would not be jeopardized."

CANADA MAY GIVE SECURITY.

By Associated Press.

ST. PAUL, Minn., Sept. 16.—It was rumored in local financial circles today that a proposition would be made to the Anglo-French financial commission in New York by which it is proposed to effect the proposed \$1,000,000,000 loan through aid of Canadian securities. Local financiers who discussed this gossip said that exact details of the plan had not been divulged, but declared it possible that the big loan, if made, would depend upon Canadian backing for completion.

Efforts to obtain any comment from the offices of James J. Hill on this report proved fruitless and none of the local bankers close to Mr. Hill would discuss the rumor. Hill is now in New York with other American financiers negotiating with the members of the Anglo-French commission.

American Steamer Held by British

By Associated Press.

LONDON, Sept. 16.—The American tank steamer *Muskogee* from New Orleans for Gothenburg, and the Danish steamer *Polarstjernen* from Baltimore for Gothenburg have been detained by the British authorities. The Swedish steamer *Sir Ernest Cassel* has been released.

The *Muskogee* which sailed from Newport News August 27 and was reported 150 miles west southwest of Cape Race on September 1, had twice before been detained by the British authorities. She was released by the Prize Court on April 16 and was again held up at Kirkwall for three days in July.

The *Polarstjernen* sailed from Baltimore August 23 and arrived at Kirkwall September 11.

The Sir Ernest Cassel was reported held for the British prize court April 16 but was released. She sailed from Philadelphia August 24 for Narvik, Norway.

OAKLAND MAY BE LINER TERMINAL

Monlin Chiang Inspects Facilities for Proposed Chinese Steamship Co.

Oakland is to be considered as the possible Pacific terminus of the great line of steamers to be established from Orient to the United States by a band of Chinese capitalists, through the activity of members of the Oakland Commercial club, who have taken the matter up with Monlin Chiang, one of the two Chinese who represent the interests of the prospective steamship owners in this country.

Chiang has been shown the Oakland water front, and of the railroad facilities of the city with its three transcontinental railroads having terminals here. He was much impressed with what he was shown, and said that he would take the matter up with the men he represents.

Chiang is to be the guest of honor and speaker at a special luncheon to be given by Commercial Club members at the Hotel Oakland at noon tomorrow. He has been in this country seven years, and is a graduate of the University of California, and holds a post-graduate course in the Columbia University, New York. Chiang is of the Manchu caste, but has shown allegiance to that order at the time of the Chinese Republican agitation of several years ago.

Blackstone Revised by Prof. W. C. Jones

BERKELEY, Sept. 16.—Good old Blackstone, friend or foe of every college student in law depending on whether he found him easy or hard, has been revised once more, the newest explanation of his text-book in jurisprudence being the contribution of Professor William Carey Jones, head of the University of California department of law. Two volumes of the new version, which will be used by students in this university, soon will go to press.

The last version of the Blackstone commentaries was made by Professor Hammond of the University of Iowa several years ago and already is in some respects out of date. Moreover, the plates of this version were destroyed in the San Francisco fire so that, without a complete new composition, the work is not available for reproduction.

Considerable enlargement of the pre-Blackstone edition has been made by Professor Jones. He has added many notes of his own observation with more recent references than the former edition contained, together with other new notes in large quantity from other sources.

Can Suspend Object Motionless in Space

PARIS, Sept. 16.—An Italian engineer, Renzo Rota, has solved the problem of holding an object motionless in space, according to the Marseilles correspondent of the Petit Parisien. Rota is credited with having constructed an apparatus which, by the action of electric currents can be elevated to a height from 2000 to 3000 feet and kept motionless or propelled in any direction at a speed of more than one hundred miles.

Rota's apparatus can carry a weight of 100 kilograms.

It is said to remain motionless in a wind of considerable velocity, but if the wind becomes too strong, it rises automatically until it reaches a calmer region of the air. The invention is based upon reactions obtained from the electro-magnetic.

Duke of Connaught on Inspection Tour

VANCOUVER, B. C., Sept. 16.—The Duke of Connaught, governor general of Canada, arrived here today on a military inspection tour. At his special request there was no ceremonial reception, except that a guard of honor met him at the train. The duke will visit Victoria before turning eastward. Yesterday he inspected the military camp at Vernon, where 4000 men are being trained for service in Europe.

Financier Awaits Death or Health

Newman Erb's Life May Be Saved by Doctors

By Associated Press.

NEW YORK, Sept. 16.—Newman Erb, wealthy financier and railroad organizer, who swallowed two poison tablets by mistake, is today awaiting the outcome of the efforts being made by three specialists to save his life. He spent a comfortable night, is virtually free from pain and is entirely conscious.

Physicians hope that the prompt reflexion of the poison by the stomach and the first aid rendered by Mr. Erb's valet prevented all but a small amount of the poison from entering the financier's system. It will be two and possibly four or five days before any serious symptoms become apparent.

NOTED BRITON IN SECRET VISIT HERE

Squadron Commander John Porte Makes Tour of Inspection in U. S.

By Associated Press.

NEW YORK, Sept. 16.—Friends of Squadron Commander John Cyril Porte of the Royal Naval Aviation depot at Hove, England, have been told he has pledged not to reveal his recent visit to this country until he was back across the ocean, when they learned that he is due in Liverpool today aboard the White Star liner Adriatic. Commander Porte spent eighteen days in the United States on a secret and unpublicized tour for the British government. None of his intimate friends knew of his visit, and they promised not to reveal it until he reached the other side.

While here Commander Porte visited the aviation factories at Hammondsport, N. Y., and then went to Toronto, Canada, for an inspection tour for the Canadian government. Now that his secret tour is over, he will return to England. The British government have ordered an unlimited number of aircraft to be built in Toronto.

NEW AERIAL DESTROYER.

The Canada is the first of the class and is bigger and faster than the German "Melalets," according to Commander Porte. It had its official test under his supervision, and is said to have exceeded all requirements by 20 per cent. It is said to have attained a speed of 100 miles an hour. It mounts rapid-fire guns fore and aft, arranged so as to enable it to attack aeroplanes both above and below. Hitherto it has been necessary for the aviator to climb above his enemy before he could deliver the death blow.

The Canada class will have two propellers, each driving a four-bladed propeller of the latest type, which are said to combine economy of fuel with absolute lack of vibration.

Commander Porte said that these new air destroyers will carry at least 2000 pounds of explosives in the shape of bombs weighing 25, 50, 125 or 200 pounds.

The accuracy in bomb-throwing is said to be assured by a new device which will be used for the first time with these machines.

Bodies of F-4 Victims on Way to Mare Island

The Guam station supply will arrive at Mare Island on Monday from Honolulu with four bodies of the crew of the ill-fated F-4 on board. The remains of Ivan L. Mahan, machinist first-class, will probably be claimed by the widow soon after the vessel drops anchor in the lower bay, it is expected that the bodies will either be held here or at the Mare Island cemetery.

The remains of George T. Ashcraft, gunner's mate, will be buried in the Mare Island cemetery. Relatives of F. M. Herzog, electrician, second-class, will have his remains interred in the family plot at Salt Lake city, while the remains of C. H. Well, machinist's mate, second-class, will be buried at Norfolk.

The suppression of saloons in Juarez at the beginning of the celebration last night, followed by the discontinuance of the late cars across the international boundaries, caused the festivities shortly after midnight.

An alarm of Mexican outbreak at Del Rio, Tex., early today caused a strengthening of the patrols of custom house river guards and soldiers, but there was no sign of a demonstration when dawn broke.

At Columbus, N. M., part of the Thirteenth cavalry faced the daily possibility of raids from Colorado's followers of the late Orozco, but even here all was tranquil early in the day.

The disarming of the Juarez garrison was thought here to have eliminated the possibility of any attempt to shift military control of that city from Villa to Carranza.

"Just a Love Row," Says Poison Victim

SAN FRANCISCO, Sept. 16.—"It was just a love row. We quarreled. It is the old, old story."

These words were whispered in the ears of the attending physicians at the Central Emergency Hospital this morning when Miss Romana Burke, a pretty 20-year-old girl, was brought in suffering from chloroform of mercury poisoning. She had been found a few minutes before sitting disconsolate and dazed on the curb in front of the Gidson Hotel, 116 Mason street, where she lodges. H. Holmes, a chauffeur, passing in his taxi, noticed the woman and believed that she must have suffered an attack of illness. He stopped to inquire the trouble and she told him she had taken poison. Picking her up, he thrust her in his machine and raced to the hospital. There the evidence of the poison was found.

The girl has a chance of recovery. She would add nothing to her intimation that she had had a quarrel with her sweet heart.

Investigate Sinking of Lake Steamer

By Associated Press.

CLEVELAND, Sept. 16.—The crew of the steamer Onoko which sank in Lake Superior Tuesday will be examined here today to learn whether there is any ground for the suspicion that the Onoko was sent to the bottom to prevent delivery of wheat for shipment to the allies.

Captain W. R. Durna reported that there were indications that the Onoko's plates had been loosened.

Chinese Girl Wedded to American at Sea

SAN FRANCISCO, Sept. 16.—Captain P. Svendsen made memorable today his one hundredth successful voyage between San Francisco and Europa on the steamer Centralia by officiating at the wedding of an Oriental maid and an Occidental man, who, prevented by law from marrying on shore, were united on the high seas. The couple were denied license in Nevada and California.

Rudolph P. Espinosa, a 21 years old, and Florence Kee, an 18 year old Chinese girl, were the principals. Both live in Reno.

WOUND SLAYERS OF BORDER CITIZENS

Mexican Desperadoes Leave a Bloody Trail After Fight.

By Associated Press.

BROWNSVILLE, Sept. 16.—Bandits, believed to be those who recently killed two American civilians, were discovered today in the Fresno tract, 20 miles north of here. Fired on by a party of citizens and soldiers, the Mexicans fled, leaving a trail of blood, and were being pursued late today.

SHOOTING ACROSS BORDER.

BROWNSVILLE, Tex., Sept. 16.—Beginning at midnight, the start of Mexican independence day, there was much shooting and shooting along the Mexican side of the river, but no disorders were observed and nothing in the nature of a threat toward the American side of the river.

Mexican soldiers concentrated at Matamoras today for a forenoon parade. Practically no Americans

crossed the river from here to see the sights.

Orders from Sheriff W. T. Vann of Brownsville closed all Mexican dance halls in this vicinity for the day.

Two Mexicans, found heavily armed and with considerable ammunition, were arrested near Armstrong late yesterday. These Mexicans were chained to a tree for safe-keeping. Jails where prisoners can be kept with security do not exist except in the large towns of this section and the tree and chain method of holding suspects is in common practice.

U. S. TROOPERS READY.

Mexican Independence day dawned along the lower Texas border with more than 4000 United States troops under arms ready to quell any uprisings against Americans, which rumors had said would take place today. Carranza authorities in border garrisons gave assurances yesterday that no effort would be made to prevent hostilities against Americans which might occur on their side of the international boundary. Two thousand additional Carranza soldiers arrived in Matamoras yesterday. The Laredo garrison, the commander there announced, would spend the holiday patrolling the river.

Army authorities here apparently were most apprehensive of chance outbreaks in isolated sections where anomalies have been engendered between citizens and county officers and between citizens and their neighbors.

It is said to have attained a speed of 100 miles an hour. It mounts rapid-fire guns fore and aft, arranged so as to enable it to attack aeroplanes both above and below.

Hitherto it has been necessary for the aviator to climb above his enemy before he could deliver the death blow.

The Canada class will have two propellers, each driving a four-bladed propeller of the latest type, which are said to combine economy of fuel with absolute lack of vibration.

ALL QUIET ON BORDER.

EL PASO, Tex., Sept. 16.—All was quiet on the Rio Grande, from Del Rio, Tex., 400 miles west of here, and on the border as far west as Columbus, N. M., when the celebration of Mexico's Independence day began today. In this city a patriotic meeting at one of the parks was scheduled for the afternoon. Little more than the usual police guard was detailed to attend. Small patrols of soldiers loitered through the Mexican districts. Automobiles bearing the national tricolor appeared on the streets. The police frequently insisted upon the cars carrying the American flag in addition to the tricolor and in such cases the tricolor usually was removed.

The suppression of saloons in Juarez at the beginning of the celebration last night, followed by the discontinuance of the late cars across the international boundaries, caused the festivities shortly after midnight.

An alarm of Mexican outbreak at Del Rio, Tex., early today caused a strengthening of the patrols of custom house river guards and soldiers, but there was no sign of a demonstration when dawn broke.

At Columbus, N. M., part of the Thirteenth cavalry faced the daily possibility of raids from Colorado's followers of the late Orozco, but even here all was tranquil early in the day.

Cyclone Wilson Gets Needed Spectacles

By Associated Press.

KANSAS CITY, Mo., Sept. 16.—Flood conditions in southeastern Kansas and points in north central Oklahoma were little reached today. Although probably the heaviest meteorological cyclone of the year, Wilson yesterday appealed through this newspaper for spectacles that an oculist had told him he needed. Nearly 100 offers have been received up to 2 o'clock, and there were still coming in. Wilson received first word from the Chin-Berets Optical Company and was visited by that firm today. He asked the Tribune to thank a host of friends.

Ladies' Aid Society to Elect Officers

SAN FRANCISCO, Sept. 16.—The California Ladies' Aid Society of California will elect officers for the year at the convention of the grand council of the society tomorrow in the Y. M. C. building.

WHITFIELD, Cal., Sept. 16.—Clarence Williams, a rancher, died today from burns received yesterday in a fire which destroyed the Walbridge ranch house near here. The child, whom the father dropped out of a second floor window, was severely burned, and may die.

Mr. T. R. Carton, grand president, was present. A reception to the society was held last evening in the Y. M. C. hall.

Each of these citizens experienced a flood

conditions when residence were inundated by flood waters.

Williams yesterday was racing

from a seven- and one-half inch rainfall.

Carabiners worked throughout

the night seeking persons marooned by

the swiftly rising waters. Public buildings and churches housed the flood-stricken

refugees.

</

ROAD EXPERTS COPE WITH PROBLEMS

Convict Labor, Justifiable Outlay and Other Measures Espoused.

One of the big factors for the solution of the prison question, in the opinion of G. P. Coleman, State Highway Commissioner of Virginia, calls for the use of convicts in the construction and maintenance of the roads. Coleman, with J. E. Maloney, secretary-engineer of the Colorado State Highway Commission, were the principal speakers at today's session of the Pan-American Road Congress in the municipal auditorium, both being advocates of the prison labor system for road improvement.

"The work and the healthy out-of-door life tends to build a man up physically," said Coleman, "and when you do that, he will build you morally; you train him as an expert in the handling of many pieces of road machinery and, therefore, place him in a position to earn honest living after his confinement."

Maloney is of the opinion that prisoners who are placed at work on the state's roads should receive remuneration of some kind, as well as reductions in their prison terms. The honor system, he said, has proven a success in every way in the state of Colorado. Maloney said in part:

"I can say that the experience of the state of Colorado with the employment of convicts on the roads under the honor system without guards of any kind, has been entirely satisfactory."

ENTITLED TO PAY.

"However, it would seem only fair and just to the prisoners that they should receive some remuneration for their labor, besides the reduction in their sentences, after they have proven themselves worthy of the trust reposed in them, and while we do at this time, pay any per diem, still I am convinced that after a man has served, say six months on the roads and performs satisfactory service, he should be given a certain per diem, say \$5 cents. This sum could be held in reserve for him until the expiration of his sentence, or could be handed to those who might be dependent upon him. This would enable the prisoner to have a little money accumulated, so that at the end of his sentence he would be able to live honestly while seeking employment, and get a fresh start in life."

"We must realize that the problem which confronts us is a world-wide one, where the criminal using his wife in perpetration of his crimes, turns down the law which society has deemed necessary for the protection of its civilization, and with this to learn two things to temper our punishment of, and to give him a break from justice, remembering always that he is a human being who, for the protection of all of us, it has been necessary to confine as much as possible, and to have him in effecting this law it is our duty to use our utmost endeavor to return him to society better able to cope with the conditions which confront him when released."

"With this before us and after nine years of experience, I believe, that the solution of the prison question—certainly in Virginia—is to use the men in the

A-K Tablets For Various Forms Of Headache

"It is necessary in order to treat headache properly to understand the causes which produce the affection," says Dr. J. W. Myrick, of Atlanta. Continuing, he says:

"Physicians are ever anxious to treat a disease without knowing the cause which gives rise to it, and we must remember that the headache is to be treated according to the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the trouble is removed. To answer this purpose Anti-kamnia Tablets are a most convenient and satisfactory remedy. Take one to three tablets every day, and rest in the most severe cases of headache, neuralgia and particularly the headaches of old age."

CLOSING SESSION TOMORROW.

This Pacific Highway Day at the Pan-American Congress, James H. Macdonald, of Connecticut, presided at the morning session, and John A. Wilson, president of the American Automobile Association, had charge of the afternoon session. The closing session of the congress will be held tomorrow.

At a meeting to be held at the congress headquarters in the Hotel Oakland this afternoon, members of the American Road Builders' Association will elect a nominating committee of seven. This committee will nominate officers for the coming year. These will be submitted to the executive committee in February, when they will be voted upon by letter ballot.

Members of the American Highway Association will meet in the Hotel Oakland at 7 o'clock this evening and elect officers for the year.

Late this afternoon, following the close of the day's sessions of the Congress, Samuel Hill, of Seattle, pioneer good roads man of the west, will give an illustrated lecture on highways, in the auditorium theater. The public is invited to attend this lecture which will be illustrated with views of famous highways in all parts of the world.

AN-URIC!

The Newest Discovery in Chemistry

This is a recent discovery of Doctor Pierce, who is head of the Invalids' Hotel and Surgical Institute at Buffalo, N. Y. Experiments at Dr. Pierce's Hospital for several years proved that there is no other eliminator of uric acid that can be compared to it. For those easily recognized symptoms of inflammation—as backache, scalding urine and frequent urination, as well as sediment in the urine, or if uric acid in the blood has caused rheumatism, it is simply wonderful how surely "An-uric" acts. The best of results are always obtained in cases of acute rheumatism in the joints, in gravel and gout and invariably the pains and stiffness which so frequently and persistently accompany the disease rapidly disappear.

Go to your nearest drug store and simply ask for a 50-cent package of "An-uric" Tablets. Ask for A-Z tablets. "An-uric" Tablets can be obtained at drugstores

DOLLAR DAY MAKES NEW TRADE RECORD

Special Sales Day Merchants Say Was Greatest in City's History.

The throngs who took advantage of the offerings at the Oakland stores yesterday established "Dollar Day" as the most successful merchandise event in the history of the city.

To customers and merchants alike the day was one of unusual significance. Thousands of persons started early in the morning to crowd the stores, where the proprietors and staffs all day met with their old patrons and became acquainted with new. By night the sales records had soared to a figure not thought possible when the idea of the special day was first broached.

The success of the day as a bargain event, merchants say, was wonderfully demonstrated. The good-natured rivalry of Oakland stores to offer the best values for the single coin was responsible for decided money-saving opportunities that the public was quick to recognize.

The buying crowds came to Oakland from all parts of the county and outside and the store acquaintances made with these people is considered one of the greatest of the day's developments. Dollar Day will probably become an institution in the city.

Increased confidence in the city's merchants, pleasure derived from decided bargains, and renewed acquaintances with the men who made the buying event possible are other of the day's phases that are being remembered.

ADVOCATES PAYING ENOUGH.

Large expenditures, that the very best of roads may be obtained for a community are advocated by Clifford Richardson, of New York City, whose paper on "The Determination of the Justifiable Outlay for Specific Cases of Highway Improvement" was read at the morning session.

"Pay enough to obtain a road which experience has shown will serve under the conditions which it is called upon to meet. Roads which are built for heavy travel cannot be obtained with inferior materials or for a low price. Service tests of roads subjected to similar conditions are the best criteria of quality, and they are the only means of determining the value of any form of construction. Time is necessarily an element in obtaining value of this description. Trial-out forms of construction, used sparingly, are therefore, the best evidence of how a road should be built in the future. Unfortunately, too often the proper lesson is not learned from such experience."

EXPERTS FOR PROBLEMS.

Henry Wells Durham, formerly Chief Engineer of Highways in New York City, led the discussion on this subject, advocating the employment of numerous experts to care for the all-important matter of providing communities with good roads.

Durham said in part:

"We may not be able nor might it be desirable, in a world of ordinary mortals, to bring about a Utopian municipality where everything is perfect and no further incentive for the ambitious man after the unattainable. What can be accomplished is on its way now to accomplish its attainment of a willfulness in our communities to place the responsibilities in the hands of experts for solution, to concentrate authority and with it to demand responsibility, in fine—to take our technical departments and their workers out of politics."

CLOSING SESSION TOMORROW.

This Pacific Highway Day at the Pan-American Congress, James H. Macdonald, of Connecticut, presided at the morning session, and John A. Wilson, president of the American Automobile Association, had charge of the afternoon session. The closing session of the congress will be held tomorrow.

FUNDS VOTED TO ENTERTAIN UNION

Appropriation, Defeated by Mayor Last Week, Passed by Council.

The City Council today appropriated \$300 from the entertainment fund to defray the expenses of entertaining delegates from the Women's Christian Temperance Union. This is the appropriation that was voted down a week ago when Mayor Davis was unable to cast the deciding vote. The mayor voted against the appropriation to day, but the commissioners were unanimous against him.

The improvement of East Twelfth street, from Thirteenth avenue east, was the subject of several protests before the council today. The matter was put over for one week. Among those who protested were Peter Tum Suden, Fred C. Hensle and A. R. Baldwin, representing the Western Pacific Railroad. V. S. Northy appeared favoring the improvement.

Receipts from dockage and tolls on the city waterfront totaled \$3507.89, according to the monthly report for August, filed by City Wharfinger W. J. Masterson. The items in the report were as follows: Arrivals, 196; tonnage, 42,485; feet of lumber, 6,625; dockage, \$783.49; tolls, \$1986.40; water, \$4; rentals, \$693; waterfront leases, \$125.

Road Congress Urges Military Highways

Following a bitter two hours' fight between two factions, the Pan-American Road Congress this afternoon adopted a resolution calling on the congress of the United States to investigate the feasibility and necessity of constructing a system of military highways throughout the country.

The motion as finally adopted was a half-hearted compromise agreed to by the majority members in order to stop a filibuster which had been maintained by the opponents of the resolution.

The original resolution as reported and recommended by the committee on resolutions, called for the endorsement of the congress of a plan to submit to the national government the question of investigating the practicability of building the military highway through the three states of California, Oregon and Washington, from the Mexican to the Canadian border.

"Pay enough to obtain a road which experience has shown will serve under the conditions which it is called upon to meet. Roads which are built for heavy travel cannot be obtained with inferior materials or for a low price. Service tests of roads subjected to similar conditions are the best criteria of quality, and they are the only means of determining the value of any form of construction. Time is necessarily an element in obtaining value of this description. Trial-out forms of construction, used sparingly, are therefore, the best evidence of how a road should be built in the future. MANY PARTICIPATE IN BIG BARBECUE

Manufacturers Enjoy Field Meet at Sunol Water Temple.

Questions galore are going the rounds of the Manufacturers today as a result of their barbecue at the Sunol Water Temple yesterday.

Some of the queries follow: Why Curtis Wright fell down at the start of the first race? Where Dr. Pease learned to run so fast?

Why Clem Ady was in the fat man's race?

What Arthur Porter will do with the prize he won in the broad jump?

Why a mile-run between Sturges and Jack Howard was not arranged?

Where Joe Rothberg got his ornate, high jumping, shot-putting, and hammer-throwing propensities?

Why Leo Kennedy always wins the fat man's race?

What the prize was that was given by the Zellerbach Paper Company?

Who Buckey won it?

The party of over 100 manufacturers and members of the Chamber of Commerce and Commercial Club left at 10 o'clock in the morning, and toured the Livermore valley, arriving at the Water Temple for a barbecue at noon.

Curtis Wright, Jr., chairman of the Manufacturers' Committee, got the stickpins from H. H. Jackson Company for the 100-yard dash.

G. P. Potters won the high-jump, the broad jump, and the hop-step-and-jump, taking three prizes; one a plate and 100 feet of ink from Smith Bros.; another a bottle of ink from the Caldwell Ink Company, and the other a towel rack from the Crane Company.

Kennedy won the fat man's 100-yard dash and drew a box of crackers from the California Cracker Company.

Henry Schroeter was the victor in the sack-race, and drew a tumbler holder from the Crane Company.

J. J. Rosenthal made a short address on "The Oakland Postoffice," and then proceeded to take the prize for the hammer-throw.

The party returned by way of Niles Canyon and visited the experimental gardens of the Luther Burbank Company at Hayward.

PENNSYLVANIA SOCIETY HOLDS REGULAR MEETING

The regular monthly meeting of the Pennsylvania Society at the Hotel Oakland held last evening was largely attended, there being many visitors from the East.

The evening's entertainment consisted of a well-selected musical and dancing program, as follows:

Piano solo, "Pure as Snow"; Miss Rita Bear.

Spanish Dance; Miss Dorothy Spitz.

Accompanied on piano by Mrs. G. S. Soprano solo, "Song of the Soul"; Mrs. Louise Banks.

Accompanied on piano by Miss E. Locke; "The Little Gray Home in the West"; Violin solo, "Ballad of Polonaise"; Ernest Paul Allen.

Accompanied on piano by Mrs. C. D. Slaughter; "Fiboch Spring Dance"; Miss Frances Spitz.

Accompanied on piano by Miss Rita Bear; "The Little Gray Home in the West"; Mrs. Louise Banks.

(Repeated by numerous requests.) Spanish Dance; Miss Dorothy Spitz.

(Repeated by request.)

General dancing was indulged in until a late hour. The next regular monthly meeting will be held at the Hotel Oakland on Wednesday evening, October 20, 1915.

NO SALOON VOTE TO BE TAKEN IN LAKE COUNTY

LITTLE LANDERS DEMAND

ELDER TELLS OF MUTE COURTSHIP

MEET TO DISCUSS LAND DISPOSAL

Motorman Who Ran Away With Deaf and Dumb Girl, in Jail.

Mr. F. H. La Baume, who is the agricultural and industrial agent of a big Eastern railroad, recently investigated the Little Landers movement in California, and made the following significant statement:

The most salient demand of the people of the United States is the ownership of a home, with freedom from industrial slaves and security against want. Mr. Wm. E. Smythe evidently recognizes this and the general feeling among the American people that the cost of living is too high. I think this is why he is so thoroughly interested in solving the problem through the establishing of his little farms. It is generally conceded that attempts to make ordinary farmers of the masses have not been successful; people wearied with the rush, tumult and uncertainty of city life would be overwhelmed by the isolation and drudgery of the large farm. It is even difficult to keep farmers born and bred in the country, to stay on their own land, and the cry is for conditions that meet the call for freedom, independence, security and out-door living, with the advantages of the city, including home conveniences, nearby congenial neighbors, attractive social environment and rational entertainment. This is the Little Landers' Colonies aim to supply."

Mr. La Baume might very well have added that not among the least important features of a Little Landers Colony is the system of FREE, expert instruction in all the principal lines of scientific, technical, agricultural, which makes it possible for every willing, intelligent person to start with the best advantages, and also the co-operative marketing system, which solves, perhaps, the hardest of all problems for the producer.

The development of the newest Little Landers Colony at Hayward Heath has been remarkable and more than ever now it offers a wonderful opportunity to those "who have always wanted" a real self-supporting home, under the finest conditions that man and nature can make.

The best "show" in town is free to every one. It is an illustrated lecture with over 100 slides by the Hon. Wm. E. Smythe who is the founder of the Little Landers movement.

Remember the date—Friday at 2:45 p. m., and again 8:15 p. m., at Golden West Hall, Pacific Bldg., Sixteenth and Jefferson streets.

Or call any time for further information and literature at 303 Phelan building, San Francisco; 204 First National Bank Bldg., Oakland. Advertisements.

POSTOFFICE SAFE ROBBED.

By Associated Press.

DUFUR, Ore., Sept. 16.—The safe in the postoffice at Dufur, near here, was blown open with dynamite last night and looted of \$200 cash and postage stamps. The \$11 in the store of Postmaster James Seleck, who is located, was robbed of \$30 cash. There was no clue to day to the robber's identity.

HAIR GOODS.

Hairdressing, shampooing, manicuring, hair work. Diehl's, 469 14th St.—Advertisement.

SAN FRANCISCO, Sept. 16.—William E. Allen, a United Railroads motorman who ran away with 15-year-old Frances McKeith, a deaf and dumb girl, and was brought back here last night, told the police how he began his remarkable courtship today.

Allen, 26, the ringer language used by deaf mutes. By turns he was motorman or conductor on the Kentucky street line, on which, Mrs. Frances Allen was a frequent passenger. A few casual passes made by one and answered by the other cemented a strange friendship, in the course of which Allen told the girl that he loved her and wanted to make her his wife.

BRIDE IN DARK.

Meanwhile his own bride of three months, living at 231 Mission Street, was unaware of the developing courtship.

Ultimately Allen induced the girl to elope with him, and they ran away to Sacramento. The girl's step-parents, Mr. and Mrs. F. W. Cody, of 621 Hyde Street, initiated a statewide search.

Allen has been missing from his home since Sept. 6. Mrs. Allen said yesterday:

"An anonymous letter reached the Cody's, in which the fact that their step-daughter and the motorman were living in Sacramento as man and wife was revealed."

IN DETENTION HOME.

The step-parents of Miss McKeith brought her back to San Francisco yesterday. She was taken to the Detention Home.

Allen was also brought back by Detective Callahan, who is probable that he will be charged with contributing to the delinquency of a minor.

Allen's bride of three months declared her intention of letting the law pursue its course with Allen without assistance from her. The first news she had of his elopement came from the morning papers.

"What gets me," she said, "is how he managed to make love to a deaf and dumb girl with such success."

The police learned the answer last night. Allen knew the ringer language almost as well as the girl's.

"I didn't know there was any other woman in the case," said the bride yesterday.

"He must have fooled her easily."

Any girl who thinks she is married as soon as a wedding ring is slipped on her finger shouldn't be allowed to ride around on street cars."

U. S. CIVIL SERVICE TO HOLD EXAMINATIONS

The United States Civil Service Commission announces that the examinations listed below will be held in San Francisco at an early date:

Assistants in mechanical draftsmen (male), \$1650 per annum; Executive and Repair Department of the Signal Corps Aviation School, San Diego, Calif.; Ship draftsmen (male), \$3.25 to \$5.00 per annum; Bureau of Construction and Maintenance, Department of War, D. C., and elsewhere.

Chemist (male), \$1200 per annum; Ordinance Department at Large.

Laboratorian in chemistry and physics (male and female), \$500; Bureau of Plant Industry, Department of Agriculture, Washington, D. C.

Assistant in shade tree insects (male), \$100 to \$1600 per annum; Bureau of Entomology, Department of Agriculture, for service in the field.

Application blanks and further information relative to these examinations may be obtained from the Superintendent, Twelfth Civil Service Division, Room 214, Post office building, San Francisco, California.

THE NEW 42-SIX IS HERE

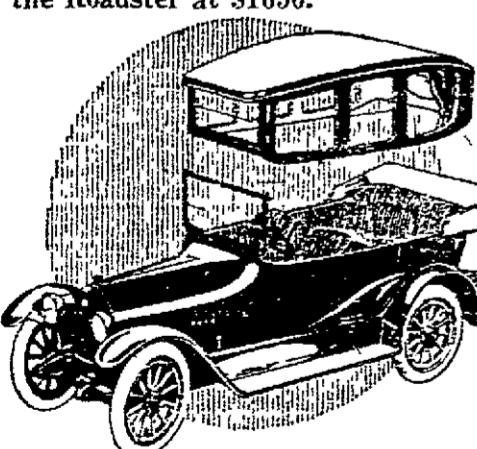

KISSELKAR

"Every Inch a Car"

The verdict on the 42-Six of last season was: Superlative quality in every detail—construction, appearance and general performance. The new 42-Six of this season possesses refinements and improvements on last year's model—and at a lesser price!

Smoothness of motion is the keynote of the motor, beautiful yacht-like lines the feature of the design—in fact, ALL that you have thought OUGHT to be in a car, and have perhaps yet to find, is embodied in this latest Kissel product.

Note the reduction in prices: The Five-Passenger Four-Door Touring Body is listed at \$1485, the Seven-Passenger Four-Door Touring at \$1585, the Five-Passenger Two-Door at \$1650, the Seven-Passenger Three-Door at \$1750 and the Roadster at \$1650.

*The
ALL-YEAR
Car*

A notable Kissel invention of last season, whose Detachable Top arrangement provides an open car when it's one to the other in less than a half hour—giving you the utmost in versatility and practicability. With the new 42-Six the ALL-YEAR Car comes in three models: Roadster Coupe, \$1550; 5-Passenger Sedan, \$2000, and 7-Passenger Sedan, \$2100.

EVERY Kissel model, part for part, is built in the Kissel factory, and nowhere else. No "assembling" in the case of the KisselKar—every detail of body and chassis is constructed in the one plant at Hartford, Wisconsin, by manufacturers whose watchwords are endurance and service always.

The COMPLETE line of KisselKar models, including the new 32-Four, is now ready. Why not drop in, place your order and insure early delivery?

The commercial cars, the Kissel Trucks, are also ready for inspection. They range from the 1000-lb. capacity model at \$950 to the 6-ton capacity at \$1350.

SPAIN WINS TRADE IN YEAR OF WAR

Exports Show Large Gain, While Imports Fall Off; Ups and Downs Felt.

MADRID, Sept. 16.—The Monthly Statistical Review of the Foreign Commerce of Spain, a government publication, the current number of which has just been issued, is full of surprising information. It shows the most extraordinary ups and downs in Spain's foreign trade for this year, as compared with the period just antedating the war. Generally speaking, the figures show a considerable diminution in imports and a very material increase in exports during the first half of 1914.

The activities of the ministry began early with a meeting of the committee on procedure, which found itself called

upon to consider claims for representa-

tion made at the beginning of the year by three

Spanish shipping companies.

AUTOMOBILES REAP HARVEST OF DEATH

Two Killed. Four Hurt When Train Hits Machine at Roseville.

SACRAMENTO, Sept. 15.—At a bend in the road where it crosses the Southern Pacific tracks between Roseville and Lincoln an automobile traveling the highway and carrying six passengers was struck by train No. 32 at 5 a.m. yesterday afternoon. Mrs. C. A. Moore was instantly killed and her body thrown 200 feet, and John Moore Jr., a brother-in-law, died soon after as a result of his injuries. George Moore, Mrs. John J. Moore Jr., and the year-old baby girl of the C. A. Moores were all thrown from the car.

The automobile owner had taken the party who are farmers of the Lincoln district for a drive, visiting rods, and apparently interested in explaining the mysteries of the car to prospective buyers, drove immediately in front of the train.

The body of Mrs. C. A. Moore was buried in a field near by.

SURGEON KILLED.

REEDERA, Sept. 15.—Dr. G. W. Snelter, a surgeon of this city, was fatally injured late yesterday when a North-Western Pacific freight train struck his car.

Snelter was struck nearly a hundred yards and died a few minutes after being picked up.

Francis Little, who was with the doctor, was injured, but not fatally.

TWO HURT AT MARYSVILLE.

MARYSVILLE, Sept. 15.—In an automobile collision on the state highway near here, Miss Edith Crast, a member of the University of Chicago party here under guidance of Professor J. Paul Goode, were injured. Miss Crast received body injuries not serious. Miss Moll's shoulder was wrenches. The other women not of the party were slightly injured.

ASKS MOTORISTS' ARREST.

SANTA ROSA, Sept. 15.—C. L. Kunde, owner of the Wildwood vineyards in Los Gatos Valley, has sworn to a complaint charging M. B. McCormick of San Francisco, who owns a ranch near Kenwood, with manslaughter for having run down and killed his son. McCormick claimed that he lost control of his automobile.

NEWS OF SAN JOSE

What Busy Santa Clara Valley Is Doing

POLICEMAN MUST DIVIDE ESTATE

Sisters of J. H. Pearl Win Suit for Share in Father's Estate.

SAN JOSE, Sept. 16.—Judgment in the sum of \$1,700 was rendered by Superior Judge J. P. Welch against James H. Pearl, a San Francisco policeman, in favor of his two sisters, who sued for a share in property worth \$7,500 left by their father, the late J. H. Pearl.

The sisters contended that when their father died and divided their brother the property among the three who have three children, were compelled to share it with the expectation that the son would remain later for the benefit of his sisters as well as himself. The policeman complained that the property was divided outright to himself, born for heavy loans which he had made.

Attorney for the plaintiffs pried closely into Pearl's personal expenses and maintained that he had been compelled to show that it would have been impossible for him to have been imposed a loss of his son's salary to have made a loan which Pearl stated that he made.

"BLACK HAND" CASES IN NEW ATTORNEY'S HANDS

SAN JOSE, Sept. 16.—A second substitution of attorneys occurred in the "black hand" case, so-called, when the firm of former Mayor Charles W. Davis, John C. Clegg, defense and Attorneys J. B. Peckham and C. M. Vallerio announced they would represent the defendants—Joseph Vetrano and Louis Difranco of the Stelly Club, Louis O'Neil, and the West Knights, criminal attorneys in the county, was first retained but dropped out of the case for unknown reasons. Partridge and Davis, who had been substituted, are now in the case following disqualification of London obtained by a member of the Stelly Club in an attempt to obtain the release of Vetrano. The two prisoners will have preliminary examination September 29.

ARREST ALLEGED OPIUM AND DRUG PEDDLERS

Wah Gin and Ah Sway, said by the police to be the leaders of a gang of Chinese who have been peddling opium, cocaine and other drugs to waiters, barbers and newsboys in Oakland, were captured last night and charged with violating the state poison act. The arrests may lead to other captures.

Wah Gin was arrested by Corporal Smith and a posse of police just after he had sold two "cards of opium" to a young man. The police noticed that a Chinese who had been with Wah ran into a doorway 229 Ninth street. The place was raided and Ah Sway arrested. Opium and other drugs found in the place were confiscated.

HUSBAND MEAN, SAYS WIFE, FILES DIVORCE

H. Henry of Berkeley is a mean sort of a man, his wife says. He makes her pay her own street car fare, he had their telephone removed and he took her engagement ring and kept it greatly to his humiliation, according to the complaint for divorce which she filed today.

Aside from that he never spoke to her except to complain about the way the house is run.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.—Advertisement.

By morning, if not all, or your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

The one sure way that has never failed to remove dandruff at once and that is to dissolve it there. Destroy it entirely. To do this just get about four ounces of plain common liquid arrowroot from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Education Board Reinstates
Miss Baxley as PrincipalTEACHER AT
LAST WINS
VICTORYTwo-Year Contest Ends in the
Vindication of Demoted
Head.

After a contest lasting two years for her reinstatement to the eligible list of principals, following her being demoted from the principalship of the Alendale school, Miss Alice Baxley won a victory last night.

Action bringing about her reinstatement was taken by the Board of Education following an appeal in her behalf by Director Boyle and City Commissioner Edward.

The committee, headed by Commissioner Edwards, empowered by the board to hear evidence in the case, submitted the recommendation for reinstatement, basing it on the statement of ex-Superintendent of Schools J. W. McClymonds to the effect that the former Board of Education had made a mistake when it demoted Miss Baxley, by not transferring her to another school. The committee furthermore took into consideration the statement of Superintendent of Schools Barker that the school of Miss Baxley's school was as good as any in Oakland, that her work was equal to that of any principal and further, that he knew of no discord between the woman and other teachers.

MOVES TO REFER.

Following the reading of the report by the clerk, a motion to have it referred to the committee of the whole was made by Director Boyle, who backed by Director Mrs. Hawes, in her explanation that "the other side ought to be given a hearing." The women directors contended that the Mothers' Club, who had brought about the demotion of the teacher, had not been given a chance to place their ideas before the investigating committee of late yesterday afternoon.

"Some months ago a janitor was given another chance by this board when he was a case for drastic action," said Commissioner Edwards, ex-officio director. "We should treat a woman with the same degree of justice."

Again Miss Brown asked that a ruling be made by the chair on her motion to have the report referred to the committee of the whole. Commissioner Edwards dissented, stating that it was up to the entire body to take action on the matter.

BOYLE MAKES PLEA.

Commissioner Boyle arose and made the following plea in behalf of the demoted teacher:

"A lone woman is before us tonight asking for justice. Two women are members of this board. These two women represent their sex in Oakland in the State of California. One of them is of such a nature as to be just and willing to do justice by the woman. The two women members should forget their personal opinions, should forget the animosity of others, but should remember that it is their duty to give this woman another chance. The eyes of all womankind are on us. We should remember the saying of all for one and one for all. Justice is what this case asks and deserves."

As the audience was echoed throughout the large room, Director Kelly, sitting opposite Director Boyle, in a loud tone of voice said: "That was a fine speech but you neglected to mention the American flag in it."

LOUDLY APPLAUSED.

The many people who attended the board meeting, many of them women, quite a few men, loudly applauded the speech of Director Boyle. Again Miss Brown and Mrs. Hawes asked that it be put before the committee. Again Commissioner Edwards dissented. The chair called a vote on the report, which was carried, thus reinstating Miss Baxley. Directors Brown, Hawes and Kelly voted against it.

TRANSFER NOT EXPLAINED.

"What explanation was given you as to your transfer?" Mrs. Hawes asked.

"None was given," Miss Baxley answered.

"Did Mr. McClymonds ask you to transfer to the McChesney school?"

"He did not," Miss Baxley said. "He advised me to ask for a transfer from the Alendale school. I said I would not do so. I did not see any reason for asking to be transferred."

"I have never had any intimation that there was any feeling on the part of the teachers and I was greatly surprised at the trivial things concerning which they testified."

"I am now asking that the board re-elect me back on as school principal with a view that I shall have a school where I can be sent back to Alendale. That would work an injury to the present principal who is a third party, not connected with this controversy. What I want is exoneration."

Classing the suggestion by Chairman F. B. Cook to have a municipal tag day for raising funds to defray the payment now due on the teleclone at Chabot Observatory, as most undignified, Director Miss Brown stated that such a procedure "belittles the school department."

A payment of \$3,700 is about to become due at the telescope, which was purchased at a total cost of \$18,000. Commissioner Boyle stated that the members of the school board could be held personally responsible for this amount.

"I have stated all of the directors 'set up tag toot notice'." A committee is to draw up some plan of payment.

MANY PLAYGROUNDS CLOSE.

Commencing today 21 of the Oakland playgrounds will be closed for the balance of the year, due to the cut made by the board of supervisors in the school budget. This action was taken by the board last night on motion of Commissioner Edwards.

Superintendent of Schools Barker had suggested that the closing take effect the end of this month.

"What's the sense of having playgrounds when school roofs are in leaking condition and when there are not enough seats to accommodate the increase of pupils?" said Miss Brown.

"It would like buying candy when you haven't got bread or butter," said Edwards as he asked for a vote. It unanimously carried.

Delegations of mothers' clubs appeared before the board asking that the yards of the Duran, Lockwood and Grant schools be repaired and stating that youngsters badly bruised their legs by falling on the rocks. Commissioner Edwards informed the committees that the supervisors had tied the hands of the school board toward making many needed improvements. He further stated that the city council had allowed the board over \$29,000 more this year than last year for maintenance of schools and playgrounds. The committee spokesman re-

"It seemed better to transfer her than to transfer all the other teachers," said McClymonds. "I was ready to offer her

Young Engineer Is Heir
to Wealth to Oakland Man

From a position paying \$175 monthly to the possession of a fortune of nearly \$250,000 is the step that James R. N. Boyd, civil engineer, residing at Lake and Madison streets, Oakland, has taken over night. Boyd has received word that under the terms of his father's will he will receive an equal one-seventh of the \$2,000,000 estate. The father, James R. Boyd, was a banker and capitalist of Richmond, Va., who died September 6. Boyd Jr., in Oakland, expressed no surprise this morning when told of his inheritance. Asked as to his plans for the future, he said: "I shall keep my job. I like work and engineering is a profession any man might be proud of."

The young man is a graduate of the Annapolis Naval Training School and at one time was a lieutenant in the United States marine corps. At present he is employed as superintendent of the contracting firm of Bates, Borland & Avery. He places the total amount of his dad's estate at \$2,570,000.

a better school, the McChesney. It was not my recommendation that she should be demoted, but transferred. I thought the former board of education made a mistake in reducing her to the rank of teacher, as there was nothing against her record but the fact that she did not get on well with the teachers.

REFUSED TO BE TRANSFERRED.

"When woman fall out, it's usually of no use to attempt to force them to get on together. It is best to separate them. I advised Miss Baxley to accept a transfer, but she refused. She wanted to fight. Then the hearing commenced, and these charges grew out of the hearing. The board acted against my recommendation, which was that she should be made principal in some other school.

"Conditions had not been right at the Alendale school for some time. First there was one teacher who asked for a transfer, saying she could not work with Miss Baxley. Then Miss Baxley asked for the transfer of two others. Then a general rebellion broke out among the teachers, and with the exception of one, all wanted to be transferred, or to have Miss Baxley transferred.

"I recommended to the board that Miss Baxley be transferred. The board took the view, however, that if she was not good enough for one school, she was not good enough for another. Justice is what was a connection are nonsensical."

CASES NOT CONNECTED.

Superintendent Barker stated that he had visited the Alendale school, when Miss Baxley was principal and found that conditions were apparently satisfactory. He said he had handled the Janitor Kelly case, had obtained Kelly's resignation, and there was no connection between the teachers, and with the exception of one, all wanted to be transferred, or to have Miss Baxley transferred.

"There were no charges against Miss Baxley as to her ability. It was merely a matter of lack of harmony.

"There was absolutely no connection between the Baxley case and the case of Janitor James Kelly. Charges that there was a connection are nonsensical."

"I have never had any intimation that there was any feeling on the part of the teachers and I was greatly surprised at the trivial things concerning which they testified."

DANCES FOR BENEFIT.

"Why do you think you were removed from the school?" Miss Baxley was asked by Commissioner Edwards.

"At first I thought it was a misunderstanding," answered Miss Baxley. "When we had this investigation before it was shown that there was no lack of harmony. The teachers were all asked whether I had ever made any unjust demands or criticisms of them. During the many years there was no lack of harmony."

"I thought the board had made a mistake that this mistake would be rectified. But as time went by people kept telling me that the whole matter was a frame-up. I listened to them."

TRANSFER NOT EXPLAINED.

"What explanation was given you as to your transfer?" Mrs. Hawes asked.

"None was given," Miss Baxley answered.

"Did Mr. McClymonds ask you to transfer to the McChesney school?"

"He did not," Miss Baxley said. "He advised me to ask for a transfer from the Alendale school. I said I would not do so. I did not see any reason for asking to be transferred."

"I have never had any intimation that there was any feeling on the part of the teachers and I was greatly surprised at the trivial things concerning which they testified."

"I am now asking that the board re-elect me back on as school principal with a view that I shall have a school where I can be sent back to Alendale. That would work an injury to the present principal who is a third party, not connected with this controversy. What I want is exoneration."

Woman.Bank Tragedy Reveals Strange
Russian Order; Looters
Were Members.

After an eight-months' search for her 5-year-old son Gerald, Miss Agnes Benarde has returned with the child to her home at 501 Filbert street from Oregon where she found him last week following up a clue contained in an anonymous letter.

Gerald, being restored to his mother, little Gerald Warner romped about the house today with a freedom gladly extended to him.

"I ride on trains and steamboats," he said, when asked about his travels since returning from Oregon last January preceded by a "Mrs. Williams," who is identified as a sister of Joseph S. Myers, the local real estate man who was tried for kidnapping the child.

"I was in Seattle, too," Gerald said. "Mrs. Cohen treated me fine but I am glad to get back with my mother."

Miss Benarde stated that she had been unable to obtain from the child a satisfactory story of his travels since he was taken away.

"The people who had him in their care were very much surprised when I appeared on the scene," said the mother.

"At first they did not want to give Gerald up, but when they were presented with all the facts in the matter Mrs. Cohen said she did not want to keep another woman's child if his mother wanted him."

TAKEN NORTH BY STEAMER.

"I gathered from what I heard in Oregon that Gerald had been taken to Los Angeles after leaving Oakland, but that later he was turned over to Mrs. Cohen and taken north by steamer.

As to further prosecution of Myers on the charge of kidnapping, Miss Benarde stated that the matter was "in the hands of the state." She will confer with District Attorney Elynes, however.

Her testimony would be material to the prosecution, although the case could be tried again with her previous testimony used. Also Mrs. Cohen could be subpoenaed to tell what she knows about the disappearance of Gerald Warner and the manner in which he was turned over to her.

ANONYMOUS LETTERS.

"I received a great number of anonymous letters after the trial," said Miss Benarde. "I had two telephone calls from some one who told me that the child was at Milwaukee, near Oregon City, Ore., but I paid no attention to them.

I finally received a letter from Mrs. Cohen, undated, and decided to make a trip north and find out if there was anything in it. First I had an interview with the police and was satisfied that the trip would not be fruitless."

ARRESTS IN CHINESE
Bribery Scandals

TOKIO, Aug. 16.—The bribery scandal which caused the downfall of Duran, the Chinese minister, and forced a reconstruction of the Okuma ministry, has extended to others. Four more former members of the diet have been arrested.

Thirteen men are now in jail awaiting trial on charges connected with parliamentary corruption. These include four members of the present diet and seven ex-members of the old. The latest are Saito and Hashida, who was chief secretary of the house of representatives and the manager of a Japanese firm at Dairen.

The reconstructed Okuma cabinet has announced that it will pursue the policy of the old, and as Y. Ozaki continues to be minister of justice the bribery affair may be expected to be probed to the bottom.

piled that they realized that the supervisors, and not the council, had crippled the work of the school board.

DANCES FOR BENEFIT.

In order to make certain repairs in the Duran school yard the Mothers' Club of that section secured permission from the board to hold a series of six dances, the same to be held on the fourth Friday of each month. Admission will be ten cents.

In answer to a communication received from residents of Edinburgh below the city, the clerk of the board said: "I am instructed to reply that their request for the building of a school house could not be granted because of lack of funds, but that if possible a portable school will be put up if the board is able to lease ground in that vicinity."

Turning to the many spectators, Director Boyle said: "The cut made by the supervisor is criminal. If the people want to stand for that kind of legislation, all I can do is to have my arm operated on as soon as I get down there," said Juber, as he winced with the pain of the handcuffs before leaving police headquarters.

The police were not certain as to whether he was being chattered and planning an escape from his custodian, and therefore despite the apparent pain they insisted upon the handcuffs. Before leaving, although he would make no direct statement, he did tell several marks pointing to indicate that he would throw himself upon the mercy of the court.

The third member of the bandit gang and the man believed to have escaped with a goodly portion of the loot has not yet been captured.

THE DRAPEY SECTION

In this department one will find many things of great interest if there is a necessity to furnish a new home or a desire to renovate the old one. We also maintain a well equipped work-room under competent supervision. We are prepared to execute all manner of drapery work in a thoroughly satisfactory manner.

For Floor Coverings

Oriental Rugs in large and small sizes. Domestic Rugs in the finest grades only. Rag Style Rugs in a great variety of colors and sizes. Rag Carpets by the yard.

For Window and Door Hangings

Real and imitation lace curtains by the pair. Plain and fancy nets, muslins and madras in white, ecru and colors. Sunfast and Tuba fabrics in plain and figured goods, through an immense range of colors. Imported and domestic velvets and velours in all the newest weaves and colorings. Scrim and Marquisettes in plain band and figured borders, hemstitch and in crossbar effects. Cretomines, domestic and imported goods in endless variety in narrow and double widths.

ORIGINAL FURNITURE

Wicker Furniture in willow and German reed—carried in stock and made to order. Odd utility pieces in oak and mahogany, i. e. muffin stands, tabourettes, trays, candlesticks, rose vases, magazine stands, Italian hand-carved tables and chairs, French Buell work and other imported novelties.

The CHINA SECTION

This department is replete with lovely things both for use and for ornament, that have been purchased not only in the home markets but to a large extent in the most prominent foreign cities.

Attractive Floor Lamps in mahogany, oak and gold with silk shades in gold and rose tints. There are a variety of styles and prices. Italian Marbles in a choice collection of classic and modern subjects. High Grade China Dinner Sets in Limoges and English China. We show most splendid patterns, chosen with a view to harmonize with the interior decorations. Elegant Cut Glass and Sheffield Plate.

ART NEEDLEWORK SECTION

Is showing new lines of novelties of all kinds, and is prepared to offer many suggestions about preparing for the holidays.

Tapestry Novelties in old rose and blue. Futurist Linen Novelties. A big assortment of week-end bags, work bags, dresser trays, writing sets, pin cushions, bon bon boxes, etc., etc. A large selection of bags for all purposes, in Silk Messaline and Taffeta Silk.

Come to see the very newest effects in stamped linens.

Art Needlework Section, Third Floor.

Four Hundred Inmates of Folsom Studying Widely Varied Subjects.

BERKELEY, Sept. 16.—Four hundred prisoners, grouped into forty-nine classes are receiving instruction at the Folsom prison school through the university extension division of the University of California. The courses are taught by Prof. Arthur L. Street, Mr. J. Jacobson, Instructor in charge, Dr. L. W. Howerton, Director of the extension division. Since the classes were organized in August, 1914, many have been eliminated from the classes for the 1915 to come up to the standards of the school.

The largest enrollment of prisoners is in English. Seventeen classes have been organized, with 129 enrolled. Prisoners in the other classes are grouped as follows: Ten Spanish, 10 French, 10 German, 12 men; 9 stenography classes, 49 men; 8 arithmetic classes, 39 men; 2 penmanship classes, 26 men; 3 bookkeeping classes, 2 men; 1 drawing class, 1 man.

Inmates, 130, are 26 lifers, one under death sentence lately committed to life imprisonment, and others with sentences varying from one year to ninety-nine years and life.

Studies made of the nativity of the men in the prison show that of those reporting, 371 are native Americans and 133 are foreign born. California, New York and Ohio, respectively, supply the largest number of native Americans. Mexico, Germany and France are the countries largely represented by foreign countries.

As Librarian of the prison, Instructor Jacobson reports that during the period from August 6 to September 11 the prison drew out 2,999 volumes. Fiction constituted 1,966 volumes, 114 Spanish volumes were used. Other books used are classified as follows: Educational 52; history, 27; American, French and German, 20; biography, 17; poetry, 8; technical, 6; miscellaneous, 26.

FRESHMEN SORORITY
GIRLS WILL DANCE

BERKELEY, Sept. 16.—The annual freshman inter-sorority dance will be held on October 8 in the Twentieth Century club according to the committee in charge of the affair. Committee chairman is Mrs. Anna Cook, general chairman of committees; Miss Gladys Hulting, treasurer.

The following chairmen were named: Miss Katharine Pratt, arrangements; Miss Anna Marks, musical; Miss Ruth Vincent, programs; Miss Constance Rogers, decoration; Miss Kathryn Magaw, reception.

HIT BY BALE OF HAY
FROM 35-FOOT HEIGHT

BERKELEY, Sept. 16.—After a bale of hay fell on him at test yesterday afternoon at the warehouse of Rhodes & Jamison, it struck George Lewis, an employee, it struck him unconscious. Lewis was rushed to the emergency hospital, where he was attended by Dr. A. Hieronymus. Lewis was revived, and after the fall, the young hospital uninjured. He resides at 232 Lincoln avenue.

BIG GAME AS FOOD.

BERKELEY, Sept. 16.—One of the most distinguished authorities in the country on wild animals, Dr. William T. Hornaday, director of the New York zoological park, will give a free public lecture with the title "Big Game" at 8 o'clock this evening in 101 California hall on "Shall We Increase our Big Game on a Food Supply Basis?"

The California museum of vertebrate zoology and the department of zoology and the department of the university will be present at the lecture. There will be no charge for admission.

FUNERAL FOR AGED MAN.

BERKELEY, Sept. 16.—Funeral services were conducted at a local undertaking parlor today for Alexander G. Ross, whose death at the age of 77 years occurred Tuesday night at Roosevelt hospital. He resided at 1165 Arch street, and was survived by a widow, Mrs. Christine Ross and son, Edel Reich, and by Alex Ross, a member of the United States customs service, his son.

He was a native of Glasgow, Scotland, and had resided in this country 24 years, five years in Berkeley.

PLAN VAUDEVILLE SHOW.

ALAMEDA, Sept. 16.—The Alameda Torches, Court Fride, No. 19, are looking forward to the big vaudeville show to be held in Eagles clubhouse, the program has been arranged by the University Mount-Dramatic Club of San Francisco. "Punch and Judy," Up-To-Date, "The Big Show," and the evening "Singing, dancing, monologues, and a sketch will comprise the program.

NO GAYLVEY LECTURE.

BERKELEY, Sept. 16.—There will be no lecture by Professor C. M. Gayley in the Greek theater at 4 o'clock tomorrow afternoon, since this week his class in "Great Books" is to have an examination. Professor Gayley will resume his weekly lectures in the Greek theater at 4 o'clock on Friday afternoon, September 24.

HOSTESS AT DINNER.

ALAMEDA, Sept. 16.—Miss and Mrs. Carl Rhoda were dinner guests this week in honor of Commissioner General of Sweden, Honorable Richard Berndtson. Besides the guest of honor, the guests were Consul General Carnagie Ross, and Mr. and Mrs. Caesar Berthoud, Mr. and Mrs. Dudley and Mr. and Mrs. and Mrs. Oliver Bassett of this city.

U. C. ADDS TO FACULTY.

BERKELEY, Sept. 16.—The University of California has added to the faculty Professor W. W. Kemp to its faculty. Professor Kemp will give courses in school administration and it is a splendid chance for people in educational work to fit themselves for administrative work.

RECRUITING FOR U. S. ARMY.

BERKELEY, Sept. 16.—A United States army recruiting sergeant who is at present going to the various towns in the country for the purpose of enlisting men. Call is being made for men for infantry, field artillery and the engineer corps.

10¢

GRUBSTAKE CLAIM OF
MRS. HEIM NOT UPHELD

SAN LEANDRO, Sept. 16.—Mrs. Ella M. Heim of this city has no legal claims on any of the millions taken out of the safe, according to the decision of new school buildings and addition to the city. The Board of Education last evening held an adjourned session and selected the architect for the preparing of plans.

Henry H. Meyers was named to plan the addition to the Washington school; Mr. V. P. Folsom was chosen to plan the addition to the Everett school and the rehabilitation of the present Porter school for the high school students; Carl Werner and Charles Rogers were named to plan the new Porter school building.

SOUTHERNERS ARE GUESTS

BERKELEY, Sept. 16.—Mrs. Anna of Los Angeles, who is visiting with Mr. and Mrs. W. J. Bamage, will be guest of honor at a number of social affairs, an accomplished musician and will assist in entertainments. The Mortons lived here years before going south.

SHORTHAND IN SMALL CLASSES DIVISION OF EDEN TOWNSHIP ASKED SEE POLITICS IN MISSIONARY MOVE

Successful Method Used in San Leandran to Present Resolution to Supervisors at Next Meeting.

Recently attention has been called to the shorthand worked on students in public schools by having to learn in large crowded classes. This has been realized for years past in the Ilion Shorthand Institute with the result that in this private school the instruction is given in small private classes, so that the instructors can immediately assist the learner. The progress is therefore rapid and thorough.

Another very great help to uniformity in the work is that the day classes of the Institute are for young ladies exclusively. This feature, together with the splendid class of young women in attendance, the cheerful, refined surroundings and the plain common-sense and simple methods of instruction, render the study of shorthand and typing unusually interesting and effective.

The school is located at 512 Twelfth street; elevator entrance Blake Block, 121 Washington St.—Advertisement.

W. O. W. TO ENTERTAIN. ALAMEDA, Sept. 15.—A quiet tournament will be held tomorrow evening at Woodmen of the world.

CANCER

Cured without Knife. Write calling on reliable Dr. J. H. Shirley. CANCER. Disease your own case. A non-operative treatment for the cure of Cancer and all lumps in the breast. One hundred and twenty cured cases of hundreds of cured patients in all parts of the State. May right here in your vicinity. Supervisors Inspect Davis St. Extension

SAN LEANDRO, Sept. 16.—The members of the board of supervisors, accompanied by prominent local business men, are today engaged in inspecting the new Davis street extension proposed to extend Davis street to the San Leandro line. It is not yet far taken in street improvement affairs here as is shown in the Davis street extension. For several months the board of supervisors has made no large party to enable the carrying through of the work. Welfare has been debated before the supervisors.

The town board, the Merchants Exchange and a large section of the community including property owners directly concerned have favored the extension. Several property owners have presented an opposition petition to the supervisors. The board of supervisors will probably decide this hour.

Easy access to the bay shore, which is proposed to develop as a bathing resort, would be provided by the extension, and it is suggested that a car line be run from the extension to the bay. Supervisor Charles W. Meyer is included in the official inspecting party.

U. R. APPLIES FOR WRIT OF MANDATE

Again Seeks Citation in Contempt Against Mayor Rolph and Board.

SAN FRANCISCO, Sept. 16.—Upon a selection by the Supreme Court of either of the two words mandatory or prohibitory depends the question as to whether or not the city of San Francisco and the United Railroads will become exposed to another season of litigation, which will likely last for a month or more. This morning the United Railroads applied to the Supreme Court for a writ of mandate directing Superior Judge Crothers to issue a citation in contempt against Mayor James Rolph Jr. and the members of the Board of Public Works who were exonerated of the charge on Tuesday. The question is purely one of whether or not the injunction originally issued by Superior Judge Sturtevant ordering the C and D cars from lower Market street was mandatory or prohibitory in form. The United Railroads has all along claimed that the injunction was a prohibitory one, but in purging the mayor and the officials of the Board of Public Works of a charge of contempt for failing to obey the injunction Judge Crothers held that it was mandatory. The corporation immediately after the rendering of the decision applied to the court for another citation based upon the allegation that Judge Sturtevant's injunction had been violated after an appeal had been taken.

Should the Supreme Court decide that the injunction was a prohibitory one as claimed by the United Railroads, it will mean that new citations in contempt will have to be issued by Judge Crothers and the trial of the contempt charge will have to be gone all over again.

If it should be held that the injunction of Judge Sturtevant was mandatory it would mean that the mayor and the other defendants in the contempt charge were within their rights when they continued to operate the cars before the matter had been finally settled in the Supreme Court. But if, on the other hand, it should be determined that it was a prohibitory injunction and it could be proved that they were guilty of violating it, it is the contention of the United Railroads that the contempt charge would stand.

PERSONAL

Mrs. M. A. Jagger has been enjoying a visit to the country of her birth, England.

George Anglers of Willow, who has been spending a fortnight in the town, returned some days ago to his home town.

Misses Lillian and Lila J. J. Berry were members of a motor party that stopped in Sacramento last week.

Miss Norman has been the guest of Mrs. M. E. K. Kinsella in Willow.

Miss Norma returned to town last week from a summer outing at Lake Tahoe.

Mr. and Mrs. Marvin Hutchins and their son, Marvin, have been spending a week at the rivers where they were entertained by their hosts.

Misses Norma and Miss Almyra Vaughan were the special guests of Miss Edith Hocken in Sausalito.

M. J. Boyle was a recent business visitor in Sausalito.

Mr. and Mrs. J. C. Bolster returned last week from California where the latter had been recuperating from an illness.

Miss Ruth Garratt has been a house guest of Mr. and Mrs. John C. Bolster.

Miss Leahy Mackay was a recent weekend visitor in Fairfield, where she was entertained by Mr. and Mrs. Ludwig Lambrecht and Mr. George Cressent.

Miss George Cressent has been the guest of Mr. and Mrs. Jesse O’Neil in Los Gatos.

Mr. and Mrs. A. O. Wright and their son, A. O., Jr., were in town last week.

Misses Nellie and Alice McAlpine last week at the Pacific Grove, where they were the house guests of Dr. C. M. Lindsey.

George H. Bieler was registered at an apartment house in Sausalito.

Miss Fred Miller has been visiting relatives in Utah.

Mr. M. L. Miller was a recent guest of Mr. and Mrs. E. N. Shepard, a local optician, who has a business visitor at Point Arena.

Mr. G. W. Foutain has been visiting her.

Mr. P. H. Hiltner of Oakland has been building his wills and robes raising on his home-made days at Oak Hill mine, Middlefield.

The marriage of Miss Alice McAlpine, daughter of Mr. and Mrs. J. P. McAlpine of San Francisco, to John McElroy took place a week ago Sunday at the home of the bride's parents, Mr. and Mrs. McElroy.

Mr. and Mrs. McElroy will make their home in San Francisco.

Miss Nellie Mathews spent the last week at the home of Dr. and Mrs. G. H. Hawkins.

Mr. and Mrs. F. L. Gochauer and Miss Eusebia Meyer were the guests of friends in Guerneville last week.

Mr. and Mrs. Jack Detro have been enjoying a visit at the home of Mr. and Mrs. D. C. Price in Sausalito.

Alfred C. Clegg, the guest of his brother, Henry Clegg last week in St. Helena, Miss. Alice Casey has been visiting her parents, Mr. and Mrs. Robert Case in Dixon.

Miss Nellie Mathews spent the last week with her aunt, Mrs. G. H. Hawkins.

Mr. and Mrs. F. L. Gochauer and Miss Eusebia Meyer were the guests of friends in Guerneville last week.

Mr. and Mrs. John James Castle last week at their home in Morgan Hill.

Mr. S. Gaudet and Miss C. Gaudet have been spending some days in San Jose.

Mr. and Mrs. Alfred E. Sharoor, accompanied by their family, motored to Watsonville last week.

Miss Nellie Mathews spent the last week at the home of Dr. and Mrs. G. H. Hawkins.

Mr. and Mrs. F. L. Gochauer and Miss Eusebia Meyer were the guests of friends in Guerneville last week.

FOREIGNERS LEAD IN P. O. SAVINGS

Three-fifths of Deposits Made by These Born in Other Countries.

Depositors born outside the United States now nearly outnumber all others in postal savings deposits, according to interesting figures showing up in the national report of the Post Office Department at Washington, for July. In the two just made public by the Post Office Department at Washington, on July 1, there was on deposit in the local postal savings bank \$1,062, of which 700 foreign-born citizens had in the American cash-box \$1,062. Representatives of Great Britain and her colonies led all other foreign-born deposits in the United States, their total being \$1,062, followed by the Spanish, with \$1,062. Practically every nation in the world was represented among the depositors. One hundred and twenty-two depositors have reached the \$50 limit and can deposit no more, despite their efforts to do so. Of this number, seventy-one are foreigners.

The postal savings fund at Oakland has been seriously handicapped from the start by unfortunate restrictions in the original postal savings act, which forbids the accumulation of more than two months from a depositor and the maximum amount that may be deposited by him. The restrictions have proved particularly disappointing to the foreign-born, who often insist on depositing his entire savings at one time and can not understand why the United States government, in which they have implicit confidence, is willing to safeguard a part of their savings and not all of them.

Thousands of dollars, earned by honest labor in Oakland, thus has been driven back into hiding and lost to local channels of trade.

GALLUR FACES SECOND CHARGE.
Damascus Gallur, who is charged with the murder of his aged August Hotchkiss, has once before seen time in San Quentin for conviction on charge of embezzlement. Should he be convicted, however, his sentence could not be made more severe, owing to the prior to which he pleaded guilty this week. Gallur will be defended by Attorney William S. Cox, when his trial commences, November 1.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

For the
Smoke-wise
of the Coast

In the sisterhood of states we call "The Coast,"—in every town—in every cigar store worthy of the name, you will find your Gen'l Arthur.

Any business man will agree that a cigar which enjoys this wide-spread popularity must be a good cigar.

Think this over as you smoke your next Gen'l Arthur.

At the Theatres

MACDONOUGH

A day for discussion is the racing day of "Zaza," offered this week at the theater by the famous Miss Leslie Carter. In the spot where are shown scenes of the attitude of the man who is to be safe in an outrigger, the man who is to be discovered, and the one who is to be a widow, dates as far back as 1890. Miss Carter won many laurels at the end of which the troupe was to be given a special award.

Admirers of the famous actress may be interested to learn that she is to be the star of the new musical comedy "The Blue Mouse" at the San Francisco Hippodrome, opening Saturday evening, September 21, at 8:30 p.m. Miss Leslie Carter is to be the star of the new musical comedy "The Blue Mouse" at the San Francisco Hippodrome, opening Saturday evening, September 21, at 8:30 p.m.

HIPPODROME

The new bill at the Hippodrome features a new and most attractive program. There are plenty of musical acts and lots of variety. Each of the six acts will have a different character, and it is hard to single out any of the others. The "Gentlemen" Haze and Goodman will be a good number, made up of ten girls illustrating a trip to the Zoo, a really clever and makes them most attractive.

There are shows which open with "Lalla" and his pet monkey in the lion's position, "Lalla's Venus on Wheels," Carney, Ashley and Little, three cabaret entertainers, Sullivan and Mason in "Breaking the Bank," and the Lord of Tomorrow, a rollicking musical table, with a bevy of pretty girls, are other features.

PANTAGES

A regular seven-out bill, headed by Henrietta de Serris and her sixteen living models, is proving one of the strongest drawing attractions that the Pantages has offered to the public in several months. The de Serris models present reproductions of famous paintings and marble groupings. Arthur May and Sunnie Kilduff are repeating their former success in "The Lingo of Love." Other splendid numbers are the Alexander Brothers, Webster's juvenile musicians, the University Four, Welch and Carbasse, and University Davee.

For the show which opens next Saturday, the new bill at the Hippodrome features a new and most attractive program. There are plenty of musical acts and lots of variety. Each of the six acts will have a different character, and it is hard to single out any of the others. The "Gentlemen" Haze and Goodman will be a good number, made up of ten girls illustrating a trip to the Zoo, a really clever and makes them most attractive.

FRANKLIN

Hebert Bosworth will be seen at the Franklin this week, continuing his role in a matinée of "The Little Brother of the Rich." Previous to its production as a drama of the spoken stage, "A Little Brother of the Rich" was "best seller" in a novel. As it play it had remarkable success.

The feature film offered in conjunction with the show is called "C. O. D." and is a very funny comedy picture, coming from the same author. With the Pacific Daily News and a reel or two of comedy pictures it rounds out a very good show.

"Too Many Burglars" is a farce abounding in action, which gets laughs in a perfectly legitimate way, and is a favorite. Weden and Gearin have an especially attractive offering. With novel and elaborate stage settings they present a scene which is a genuine hit. "A Little Brother of the Rich" is a good show, well cast and well directed, and it is hard to single out any of the others. The "Gentlemen" Haze and Goodman will be a good number, made up of ten girls illustrating a trip to the Zoo, a really clever and makes them most attractive.

There are shows which open with "Lalla" and his pet monkey in the lion's position, "Lalla's Venus on Wheels," Carney, Ashley and Little, three cabaret entertainers, Sullivan and Mason in "Breaking the Bank," and the Lord of Tomorrow, a rollicking musical table, with a bevy of pretty girls, are other features.

OAKLAND PHOTO

"The Climbers," Clyde Fitch's powerful play of high finance and society life is the feature of the show now playing at the Oakland Photo Theater.

The story of this popular play is familiar to all, its central theme being to show how a real wife and mother, who was starving for love, could finally reach the pinnacles of happiness and break a neglectful and brutal husband who would stand in her way. "The Climbers" is a daring story because there's a secret lover, who makes it his business to see that the object of his infatuation, the wife, is cared for, while keeping from her the real purpose of his interest and attention.

The same program which will continue until Saturday evening will be Ella Hall, the darling of the films, who plays the role of a little blue-eyed child in "Jewel," a film version of Clara Louise Burnham's delightful novel.

PRESIDENT WORKS ON U. S. NAVY PROGRAM

WASHINGTON, Sept. 16.—President Wilson is making a careful study of the reports submitted to him by Secretaries Daniels and Garrison on the country's defense. He is giving his personal attention to the cost of improving both Army and Navy.

Secretary Daniels' building program will contain recommendations for more battle-ships. He does not believe that the demonstrated efficiency of the submarine warrants a reduction in the number of capital ships.

Asked if battle-ships are still deemed a necessity in the navy, the Secretary said:

"If I did not think they are, I would not have recommended those now building. We secured a pretty good program at the last Congress—five battle-ships and twenty-three submarines. We must keep up a program that the experts say is best suited to the steady strengthening of the fleet."

ENGINEERS GATHER AT EXPOSITION GROUNDS

TRIBUNE BUREAU. Panama-Pacific Exposition, Sept. 16.—This is engineers' day at the Exposition, hundreds of electrical, mechanical and civil engineers and allied trades attending the various technical conventions which opened this morning.

The Panama-Pacific Convention of the American Institute of Electrical Engineers held its first session this morning in the Native Sons building. Ceremonies in connection with the American Society of Mechanical Engineers' Day are taking place in the Court of Abundance. The American Electro-chemical Society opened its convention in the Civic Auditorium this morning. The American Institute of Mining Engineers had its first session this morning.

Printing Trades Day celebrations are taking place in the California building. The Women's Convention is meeting in the Illinois building. The Daughters of the American Revolution are holding an open house. Silvio Pittross will be at the Marina this evening.

PAPERS IN OAK CASE TO BE SENT TO WASHINGTON

Captain A. B. Owens, U. S. N. senior engineer officer of the cruiser San Diego, finished his argument for the defense late Wednesday afternoon. The papers will be forwarded to Washington, D. C. Captain is charged with neglect.

STANFORD BEATS WIN.

STANFORD UNIVERSITY, Sept. 16.—The Stanford freshmen defeated Palo Alto High school to 4 in a sensational rugby contest yesterday afternoon. The two teams provided a heated and exciting exhibition. Davis, Swarts, Flugel and Katten played well for the winners. G. Green, Sheldon, Pratt and Kirksey led the losers. The game was the first of a series of three contests between the two teams.

DIRECTOR SETS NEW MARK.

SYRACUSE, N. Y., Sept. 16.—Director L. champion racing station, established a new world's record of 1:58 3/4 for a mile raced without a wind shield, at the New York State fair here. In so doing, he lowered his own record of 1:58.

DEAF FROM FIRE EXPLOSION.

'ROMANCE NEEDED IN ENGINEERING' CANADIAN ROADS MINISTER HERE

Professor C. D. Marx of Stanford Mates Idealism and Utilitarianism.

By Associated Press.

SAN FRANCISCO, Sept. 16.—The mayor of Aspinwall and utilitarianism a idea for the recognition of the romantic and artistic sides of civil engineering were the noted topics by C. D. Marx, professor of civil engineering at Stanford University and president of the American Society of Civil Engineers, in an annual address today at the opening session here of the International Convention of Civil Engineers.

Johnson, at home has a big job on his hands. It's up to him to see that \$2,500,000 which the legislature of the province provided a short time ago is properly expended in the construction and improvement of roads of Manitoba, Manitoba is not a small district. It extends with the new territory recently taken in, from the forty-ninth parallel to the shore of Hudson Bay, and there are many thousands of miles of highways—good roads needed throughout this entire vast tract, that it may be settled and developed properly and the most advantageous.

MAN OF ACTION.
"The man of ideals," he said, "is not man of words, but a man of actions. The possession of ideals must show it in a man's life and in a large measure in his work of his country. How can Idealism and Utilitarianism mate? We all travel unhesitatingly on land or on water. We consider our bodies, which we generally deem of more value than our souls, to car or boat, train and plane. The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"Dr. Jordan has put it well," he continued, "in speaking of the work of members of this society, 'who has had the welfare of our country at heart and has not been afraid to speak his mind.' The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."

"The man of ideals, in my opinion, is the man who can well bear the load of his ideals."
